Professional Summary

Motivated and hands-on IT graduate with strong customer service and technical support experience. Background in AWS, Windows Server, and enterprise networking, combined with real-world help desk exposure supporting end users in fast-paced environments. Known for clear communication, problem-solving, and delivering reliable support to both technical and non-technical users. Seeking an entry-level role in IT support, service desk, cloud operations, or network administration.

Education

Diploma of Information Technology (Cloud and Advanced Networking) — TAFE NSW — 2025

- Covered: AWS, Azure, network design, cloud security, automation, and hybrid infrastructure.
- Hands-on projects in cloud migration, infrastructure as code, and secure network configurations.

Certificate IV in Information Technology (Networking) — TAFE NSW — 2024

- Focus on routing/switching, Windows/Linux OS, server setup, and troubleshooting.

Certificate III in Information Technology (Networking) — TAFE NSW — 2024

- Core IT and networking fundamentals. cable work, help desk support, OS and hardware maintenance.

Key Skills

- Cloud Platforms: AWS (Certified Cloud Practitioner), basic Azure
 - Networking: TCP/IP, DNS, DHCP, VLANs, NAT, ACLs, Cisco IOS
 - Operating Systems: Windows Server, Linux (Ubuntu/CentOS)
 - Tools & Tech: Active Directory, VirtualBox, Hyper-V, PowerShell, bash, Git
- Customer Service Skills:**
- End-user technical support
 - Clear verbal and written communication
 - Issue triage and prioritization
 - Working with non-technical users

- Service-oriented problem solving
- Soft Skills: Problem-solving, team collaboration, time management, customer service

Certifications

- AWS Certified Cloud Practitioner – Amazon Web Services (2025)

Projects & Achievements

Cloud Skills Challenge – National Finalist – WorldSkills Australia

- Advanced to national finals of AWS Cloud Skills Challenge placed 4th nationally by deploying cloud infrastructure using both CLI and GUI under time constraints.

Regional Cloud Competition – (NSW) – WorldSkills Australia

- Finalist in NSW regional cloud competition outperformed 30+ competitors through strong AWS design and troubleshooting skills.

TAFE Projects

- Network Infrastructure Design – Simulated enterprise LAN/WAN setup with security policies.
- Server Deployment Lab – Built and secured Windows Server with AD, DNS, and file sharing.

IT Work Experience

IT Support Intern / Help Desk – 2024

- Provided first-level technical support to end users, resolving desktop, printer, and network issues in a customer-facing environment.
- Communicated clearly with non-technical users to diagnose issues and explain solutions.
- Managed Active Directory user accounts, password resets, and access requests in line with security policies.
- Logged, tracked, and prioritised support requests while meeting response time expectations.
- Worked closely with an external IT vendor to escalate and resolve complex issues.
- Maintained a professional and customer-focused approach under time pressure.

Other Work Experience

Warehouse Storeman / Supervisor

- Supervised and supported warehouse staff, providing clear instructions and resolving day-to-day issues.
- Communicated with internal stakeholders to ensure accurate, on-time order fulfilment.
- Resolved stock, order, and delivery issues quickly to minimise operational disruption.
- Trained and mentored new staff, focusing on clear communication and safe work practices.
- Maintained high standards of organisation, safety, and reliability in a fast-paced environment.

Professional Development Goals

- Actively preparing for additional AWS certifications (e.g., Solutions Architect – Associate).
- Intend to pursue Cisco Certified Network Associate (CCNA) within the next year.
